

# WHITEOUT

## Barrowland Ballet

**Company Contact:** Belinda  
belinda@barrowlandballet.co.uk  
+44 (0)7814 025 677

**Stage area dimensions:** Performance is end on and the space required is a minimum of 9m by 9m. Performance plays to back wall of stage where possible. The stage should be flat, level and suitable for dance with a pre-laid black vinyl dance floor. Three bays either side are required. The set is comprised of 3 flats measuring 183.33cm wide by 3094mm high. Flats fix to rolling trucks measuring 122cm x 80cm. The widest width flats will be set in performance is 7 metres.

**Lighting requirements:** A full lighting plan is available on request. Barrowland Ballet will provide ETC-based lighting control.

**Sound requirements:** Please note there is singing within the performance, which needs to be mic'd in larger venues. Two shotgun mics or equivalent set down stage centre pointing on stage are ideal. A full sound specification is available on request. Barrowland Ballet will provide a laptop running Qlab.

**Video requirements:** A high quality projector is required to achieve the correct image size and needs to be rigged overhead, typically 6 to 10 metres from the stage depending on the spec/beam throw of the projector. Level placement on stage is dependent on projector placement over audience.

**Number in touring company:** 10 including, 6 dancers, 1 Artistic Director, 1 Production Manager, 1 Technician and 1 Executive Producer.

**Touring availability:** Please contact to discuss specific dates/ touring periods.

**Any additional touring info:** There is an outreach programme of workshops that can accompany the show. Please contact the company for more information.
