Stage area dimensions: 5m x 5m.

Lighting requirements: Simple in-house rig to provide general cover and additional lighting for the front table. Sufficient dimmers to support a couple of extra specials (which we tour).

Sound requirements: Simple stereo in-house system. Sound board able to support 4 inputs. We tour: laptop running Qlab, keyboard using external midi-module and one radio mic.

Video requirements: None, we tour a wide angle projector, that rests on the floor behind our back wall and is controlled by Qlab on our laptop.

Number in touring company: 3 on the road (1 on stage).

Touring availability: By request.

Any additional touring info: Minimum 4 hour get-in and 2 hour get-out. The show uses haze and candles. It works best in a black box studio space with low acoustic resonance.
