Stage area dimensions: 7 x 7m minimum; require black dance floor and black drapes surrounding the space. The dancers will bring some audience members briefly onto the stage, therefore access from the auditorium to the stage should be easy.

Lighting requirements: 1 open white wash front light; 1 blue back light wash; 4 specials of which 1 profile, 4 fresnels; 4 par cans for a chase effect. Gels: 1 x L201 (fresnel) 4 x L132 (fresnel) 1 x L106, L139, L126, L015 (par) Lighting board.

The lighting is a very basic open white front wash which depending on the venue size will consist of 4-8 fresnels. A basic back light wash and some specials. Approximately 15 lighting states to be programmed. If the house light can't be dimmed manually or controlled from the desk, additional lights will have to be rigged for this function.

Sound requirements: In-house sound system covering the entire audience. The performers will operate the sound cues from a laptop which will be in the down stage right corner (13A mains power required).

The company will bring a Laptop + DI box. We require 2 x Ir lines to the mixing desk/control room, a mixing desk with 2 inputs (or 1 stereo input), stereo out, (1 aux if monitoring is required).

Number in touring company: 4 in company: 2 performers, Production Manager, Producer.

Touring availability: 2015/2016; please contact to discuss specific dates/touring periods.

Any additional touring info: International programmers: The show has two versions – one performed primarily in English (as seen in MIS 2014), and the other in a combination of English and another European language for international audiences; please contact the company for more details.
