Stage area dimensions: A clear floor area of 15m x 8m with an ideal minimum of 4m height clearance is required. The height can be reduced to 3m but will have an impact on technical elements of the structure.

Lighting requirements: All equipment will be toured to venues within the UK. Dimming and some lighting will be required by the promoter for international bookings.

Sound requirements: All equipment will be toured to venues within the UK. Amplification equipment will be required by the promoter for international bookings.

Video requirements: N/A

Number in touring company: 3.

Touring availability: Available from February 2015 onwards.

Any additional touring info: The structure and all equipment travels in a 40ft shipping container. Some set items are large and require good wide access to the performance space.
