Stage area dimensions: Our optimum playing space for **Miann** is entirely dependent on the venue. The desired space is 25m x 13m. We require a clean, sprung floor, we will tour a vinyl dance floor within the UK. Chairs will be placed around the outside of the room, creating a circle of audience around the playing space.

Lighting requirements: We require adequate power to run a medium size lighting rig. Any practicals and stands will be toured by Scottish Dance Theatre, otherwise we will use stock of the venue. We will tour a ETC ION lighting desk. Lighting plan available on request.

Sound requirements: We require a good quality stereo PA system. The One Ensemble has specific sound requirements dependent on venue size. These details can be discussed once venue agreed on.

Number in touring company: 17 on the road (9 dancers, 4 musicians 3 technicians, Artistic Director (Number on the road depends on rep performed).

Touring availability: From Summer 2015 onwards.

Any additional touring info: **Miann** is a full length piece by Scottish Dance Theatre, it can be performed in a range of spaces, especially non-theatre venues.

The company has a range of repertoire available for touring, including work for children. We liaise closely with venues/festivals in order to establish the most appropriate programme of work. Information on request. The company has experience of touring to a range of venues, including open air venues.

Miann is a space that the audience, musicians and dancers share.
