Stage area dimensions: 4.5m x 4.5m.

Lighting requirements: Lighting is operated by the performers on-stage. The majority of lighting is internally wired to the set and powered by batteries. A 13Amp power supply is also required. Venues are asked to provide or rig 4 x fresnels FOH. These lights are controlled through an on-stage dimmer, so sufficient cabling is required to run from rigging point to dimmer rack on-stage. For a venues with no rigging points, two lighting stands can be toured with our company.

Sound requirements: House PA required (can be toured by company if needed). The show requires a stereo feed from stage to the PA. All sound is operated by the performers on-stage after the initial set-up and level checks.

Video requirements: N/A.

Number in touring company: 3 - two performers and producer.

Touring availability: 2016 onwards.
