Stage area dimensions: Performance is performed in a horseshoe, the minimum space required for audience and the show is 8m by 8m. Barrowland Ballet will tour with a circular dance floor, 6m in diameter. The set consists of 21 cubes, 500mm x 500mm, which create a picture wall when stacked. They are moved around within the piece with an additional 3 cubes also in use. Please be aware inside the cubes are delicate installations. Audience should be seated on cushions and mats around the edge of the dance floor.

Lighting requirements: Barrowland Ballet will provide an ETC based lighting control.

Sound requirements: Please note there is live music within the performance as well as recorded music. Barrowland Ballet will provide a mac running Qlab. House stereo PA preferable, with foldback monitors available to stage. A full sound specification is available on request.

Video requirements: N/A

Number in touring company: 5 including, 2 dancers, 1 musician, 1 Artistic Director, 1 Technical Stage Manager.

Touring availability: Please contact to discuss specific dates/ touring periods.

Any additional touring info: Please contact the company for more information.
